WHAT IS AVAILABLE?

The Guilford County Board of Elections office release of public records policy is to be as open as possible while protecting legal privacy or confidentiality issues. Voter registration records, with limited exception are public records in North Carolina. Please refer to G.S. §132-1(a) and §163-82.10.

The following data are collected by the county boards of elections and are available through both the county board of elections and the North Carolina statewide database of registered voters:

voter's name, residence address within the county, mailing address, age, date of registration, party affiliation, voting history, voting districts, polling place assignment, voter identification number, race, ethnicity, gender, and some other non-essential fields may be available if collected by the county board electronically.

Statewide County documents that are routinely published, such as voter registration statistics, candidate and committee lists and election results can be obtained without the need for a formal public record request. Many of these records can be obtained from the State Board of Elections Website at www.app.sboe.state.nc.us.
